ANTONIO ALFREDO MALAGUTTI

SENIOR PROGRAM & PROJECT MANAGER | DIGITAL TRANSFORMATION, AI & FINOPS SPECIALIST

São Paulo, Brazil I +55 (19) 99210-5415 I amalagutti@gmail.com I linkedin.com/in/amalagutti

EXECUTIVE SUMMARY

Senior Project Manager and PMP with over 35 years of experience leading Digital Transformation and Technology initiatives for global corporations such as PwC, Grupo Globo, and Accenture. Expert in bridging the gap between technical complexity (AI/Data/Cloud) and business strategy (ROI/C-Level). Proven track record in strategic leadership, governance, and crisis recovery (Turnaround), focusing on predictability and flow efficiency. Analytical background in Physics (UNICAMP) providing deep expertise in translating AI, MLOps, and Big Data requirements into executive-level OKRs.

CORE COMPETENCIES

- **Strategic Management**: Portfolio Management, SAFe (Scaled Agile), Lean Portfolio Management (LPM), and OKR definition.
- **AI & Data Governance**: MLOps lifecycle management, Data Lakehouse initiatives, and Data-Driven cultural transformation.
- **Operational Efficiency**: Cloud FinOps (AWS/Azure/GCP), Budgeting (Capex/Opex), and Flow Metrics (Lead Time, CFD).
- **Critical Systems Integration**: ERP (SAP S/4HANA, Oracle) and CRM (Salesforce) global rollouts and hybrid implementations.

SKILS

- **Business acumen**: Familiarity with customer experience, transformation, and agency environments.
- **Project Leadership**: Proven ability to manage complex, cross-functional projects with strategic impact.
- **Executive Communication**: Skilled in presenting senior leadership and influencing across all levels.
- **Strategic Mindset**: Focused on transformation, with resilience in fast-paced, ambiguous environments.
- **Technical & Financial Skills**: Intermediate expertise in budgeting, forecasting, and financial tracking; advanced program and stakeholder management.
- **Office Suite**: Excel: Advanced, PowerPoint: Advanced, Power BI: Advanced.

KEY CLIENT PORTFOLIO

Delivered strategic consultancy and program leadership for industry-leading organizations across multiple sectors:

- **Financial Services & Insurance**: Deutsche Bank, Itaú Unibanco, Bradesco, Itaú BBA, Bank of Boston, Banco Original, Mapfre Insurance.
- **Retail & Consumer Goods**: Magazine Luiza, Grupo Boticário, Natura, Pernambucanas, Grendene.
- **Technology, Media & Telecom**: Globo, Claro, Cogna Education.
- **Infrastructure, Industry & Insurance**: Odebrecht Group, Santo Antônio Energia, Pilkington Blindex.

PROFESSIONAL EXPERIENCE

MLGTT CONSULTING (SELF-EMPLOYED)

Project Manager/Freelance Consultant I 2025 – Present

- **Focus on Technology, Data, and Cloud Projects**: Acting as a consultative Project Manager, focused on structuring and leading complex technology initiatives from start to finish. Working in partnership with business stakeholders and technical teams (Data Engineering, Cloud, and Development) to ensure that the strategic vision is translated into accurate, scalable, and on-time deliverables.
- **Focus on Strategic Leadership, Lean, and Problem Solving**: Project management as a service provider (PJ), acting as a strategic facilitator to unlock critical initiatives and optimize workflows. My approach combines pragmatic and resilient leadership with the use of continuous improvement methodologies to deliver real business value.

Key Responsibilities and Results:

- **Technical and Functional Leadership**: Management of multidisciplinary teams for the delivery of solutions involving cloud architecture (AWS, GCP) and data pipelines.
- **Scope and Expectations Management**: Translating business requirements into clear technical backlogs, mitigating scope creep and ensuring continuous alignment between management and execution.
- **Monitoring and Risk**: Applying best practices in schedule and budget management, anticipating technical and infrastructure bottlenecks before they impact the project.
- **Communication**: Facilitating agile rituals and reporting executive status to leadership, ensuring complete transparency regarding the progress of project milestones.
- **Diagnosis and Structuring**: Using Lean methodologies (such as the A3 framework) to map root problems, clearly define the current state, and design the action plan.
- **Leadership and Execution**: Managing the complete project lifecycle, ensuring that teams have the necessary resources and that impediments are removed quickly.
- **Change Management**: Conducting operational and technological transitions, keeping the team focused on the end goal with solution-oriented (problem-solving) leadership.
- **Process Optimization**: Identifying inefficiencies during the project cycle and implementing automation or restructuring processes to ensure leaner deliveries.

Competencies: IT Project Management, Cloud Computing, Data Science & AI Projects, Stakeholder Management, Agile Methodologies, Lean Thinking, A3 Framework, Strategic Leadership, Change Management, Problem Solving.

PWC BRASIL

Data, AI & Compliance Program Manager (agile Lead) I 2025

- **Program Leadership**: Leading the modernization of financial data programs, aligning Engineering, Audit, Risk, and Finance.
- **Governance & MLOps**: Designed and secured Audit approval for MLOps blueprints, enabling the secure deployment of predictive models in regulated environments.

- **Crisis & Availability Management**: Overseeing corporate Data Warehouse operations with a focus on 100% availability during monthly financial closings.
- **Stakeholder Strategy**: Established Quarterly Planning (PI Planning) to link business goals to technical capacity, increasing delivery predictability for the executive board.

META IT

Transformation & Operational Efficiency Manager | 2024

- **Operational Efficiency**: Diagnosed value stream bottlenecks and implemented WIP (Work in Progress) limits, resulting in a 20% reduction in software and data delivery Lead Time.
- **Change Management**: Led the turnaround of senior engineering teams, overcoming cultural resistance through metric-based management.
- **Technical Standardization**: Spearheaded "Golden Path" implementations to reduce manual toil and increase development team autonomy.

GRUPO GLOBO

Corporate Data Platform & Program Manager I 2021 – 2023

- **Architectural Pivot**: Orchestrated the transition from decentralized Data Mesh to a "Managed Platform" model, reducing operational complexity and licensing costs.
- **Risk & Incident Management**: Acted as the primary decision-maker for critical incidents, executing "Kill Switch" protocols to preserve data integrity.
- **Scale & Governance**: Implemented standardized ingestion "Golden Paths" for over 100 squads, drastically reducing support tickets and quality incidents.

ACCENTURE (SOLUTIONSIQ)

Senior Data Strategy & FinOps Consultant I 2018 – 2019

- **FinOps & Cost Optimization**: Led cloud optimization initiatives that achieved a 28% reduction in infrastructure spend, enabling reinvestment in innovation.
- **Project Recovery**: Assumed control of failing critical data programs, redesigning architecture to reduce downtime by 90%.

CI&T

Senior Project Manager & Account Lead I 2008 – 2017

- **ROI & Efficiency**: Optimized SAP/BI integration, generating recurring operational savings of R$ 1.2M/year.
- **Performance Engineering**: Reduced recurring incidents in critical pipelines by 40% through root cause analysis and window optimization.

EDUCATION & CERTIFICATIONS

- **Academic**: B.S. in Physics (UNICAMP), Associate Degree in Data Processing (FATEC), MBA in IT Management (UNIP).
- **Certifications**: SPC SAFe Program Consultant, PMP®, Management 3.0, KMP (Kanban), ITIL 4, COBIT 2019, VMO Expert, Lean Digital (Lean Institute Brazil).
- **Languages**: English (Professional/Advanced), Portuguese (Native), Spanish (Intermediate).
