

ANTONIO A. MALAGUTTI

CLOUD ARCHITECT | INFRASTRUCTURE & DATA SOLUTIONS LEAD

📍 São Paulo, Brazil 📞 +55 (19) 99210-5415 ✉️ amalagutti@gmail.com 🔗 [linkedin.com/in/amalagutti](https://www.linkedin.com/in/amalagutti)

📋 EXECUTIVE SUMMARY

Senior professional and technology strategist with over 25 years of solid track record at the intersection of large-scale software engineering, technical leadership, and the design of complex, resilient enterprise cloud architectures. Expert in the design, migration, and governance of hybrid and multi-cloud ecosystems (AWS and GCP), translating business visions and C-Level requirements into scalable infrastructure blueprints. Backed by a strong methodological foundation with certifications such as PMP, SAFe (SPC), and Kanban (KMP), I possess the analytical flexibility to implement hybrid governance models that balance high technical availability with delivery predictability and agility. I act as the link between senior engineering, security, and corporate finance teams, leading technical turnarounds and mission-critical structural projects always driven by Lean thinking and continuous operational efficiency.

⚙️ KEY COMPETENCIES

- ✓ **Cloud Architecture & Migrations:** Multi-Cloud Design (AWS/GCP), Lift-and-Shift Migrations, Cloud Refactoring, and Critical Systems Rollout (SAP S/4HANA/Salesforce).
- ✓ **Data Cloud & MLOps:** Technical structuring of Data Mesh, Data Lakehouse, Secure MLOps Blueprints for AI, and Data Engineering.
- ✓ **Cloud FinOps & Optimization:** Multi-Cloud Budget Governance, Computational Waste Reduction, SAP/BI Optimization, and Capex/Opex Management.
- ✓ **Governance, Risk & Compliance:** Best practices application based on ITIL, COBIT, ISO Standards, Technical Auditing, and Legal Compliance (LGPD/GDPR).

👥 LEADERSHIP

- ✓ **Business Acumen:** Aligning technical IT architecture choices with organizational metrics for ROI, cost, and Time-to-Market.
- ✓ **Project Leadership:** Management and coordination of structural migrations and large-scale complex hybrid/cross-functional projects.
- ✓ **Executive Communication:** Ability to translate complex technical terms and infrastructures into clear business language for the C-Level.
- ✓ **Strategic Mindset:** Resilience during critical incidents, maintaining absolute objectivity and focus on root cause analysis and action plans.
- ✓ **Financial Skills:** Capacity Planning, budgetary forecasting, FinOps, and senior stakeholder management.

📁 PROFESSIONAL EXPERIENCE

Cloud Architect / Freelance Infrastructure Consultant

2025 – Present

MLGTT Consulting - IT Consulting and Services (focused on Project Management, Agility, Data, and AI).

Client: MLGTT Consulting - Consultoria Analítica e Serviços de TI

- ✓ Technical and functional leadership of cross-functional teams focused on designing robust cloud architectures (AWS and GCP) and data pipelines.
- ✓ Translating complex business requirements into clear and viable technical infrastructure backlogs, mitigating scope creep risks.

- ✓ Utilizing Lean methodologies (A3 Framework and root-cause diagrams) for rapid bottleneck diagnostics and actionable turnaround plans.
- ✓ Continuous operational workflow and data pipeline automation to ensure leaner cloud architectures.

Data, AI & Cloud Compliance Program Manager

2025

PwC Brasil - Audit, Tax, Corporate Advisory, and Business Consulting (one of the Big Four accounting firms).

Client: PwC Brasil - Consultoria Analítica e Serviços de TI

- ✓ Strategic modernization of financial data platforms, bridging senior Engineering, Risk Audit, and corporate Finance teams.
- ✓ Designing risk-approved MLOps structural blueprints for safe, agile model deployment in highly regulated cloud environments.
- ✓ Ensuring 100% operational stability and continuous availability of the cloud Data Warehouse during high-impact monthly financial closings.
- ✓ Technical management of complex cloud infrastructure involving container architectures, cloud networks, and data governance.
- ✓ Implementing automated pipelines with technical performance trackers (availability, latency, error rates) and code quality metrics.

Infrastructure Transformation & Efficiency Manager

2024

Meta IT - Information Technology, Outsourcing, and Digital Transformation Consulting.

Client: Meta IT - Consultoria Analítica e Serviços de TI

- ✓ Achieved an immediate 20% reduction in software delivery Lead Time through the strict implementation of WIP limits and deep bottleneck diagnostics.
- ✓ Conducted operational turnarounds of senior engineering teams, grounding infrastructure support workflows on objective quality metrics.
- ✓ Managing cloud culture changes and transitions for major retail clients (Pernambucanas/Pefisa), applying Kotter and ADKAR models.

Corporate Cloud Data Platform & Program Manager

2021 – 2023

Grupo Globo - Media, Communication, and Entertainment.

Client: Grupo Globo - Mídia, Entretenimento e Telecomunicações

- ✓ Architecture and technical migration of the enterprise data layout, moving from Data Mesh to a centralized 'Managed Platform' to optimize licensing and reduce cognitive load.
- ✓ Standardizing and centralizing data governance and infrastructure provisioning for over 100 squads via automated paths ('Golden Paths').
- ✓ Acted as the primary technical decision-maker during critical data incidents, safeguarding database integrity and minimizing downtime.
- ✓ Developed advanced Python scripts and BI dashboards to automate storage volumetrics reporting and strategic KPI tracking.
- ✓ Applied Lean Thinking techniques (Kaizen and Value Stream Mapping) to map compute flows, unblock delayed roadmaps, and restore delivery pace.

Senior Data Strategy & FinOps Consultant

2018 – 2019

Accenture (SolutionsIQ) - Management Consulting, Technology, and Agile Transformation (SolutionsIQ is Accenture's specialized Agile practice).

Client: Accenture (SolutionsIQ) - Consultoria Analítica e Serviços de TI

- ✓ Structural cloud server and instance optimizations yielding a 28% real and recurring savings in the global infrastructure budget.
- ✓ Strategic recovery of distressed data programs and turnaround of unstable platforms, reducing production downtime by 90%.
- ✓ Led the large-scale deployment of agile and hybrid frameworks (Scrum, Kanban, SAFe) to scale agility across complex enterprise ecosystems (Kroton-Cogna).
- ✓ Analytical application of advanced flow metrics (Lead Time, Cycle Time, Cumulative Flow Diagram) to isolate operational waste in delivery streams.
- ✓ Technical bridging and mediation (Mapfre Seguros / FTD Educação) to align cloud migration scopes, contain scope creep, and translate jargon into business value.

Senior Project Manager & Account Lead (Infrastructure & Integration)

2008 – 2017

CI&T - Software Development and Digital Transformation (Lean Digital).

Client: CI&T - Consultoria Analítica e Serviços de TI

- ✓ Coordinated the rollout and fine-tuning of complex enterprise SAP ERP and Business Intelligence (BI) data integrations, generating recurring savings of R\$ 1.2M/year.
- ✓ Expanded high-complexity global contracts, scaling technical operations from 5 to 25 integrated agile teams under strict SLA and high NPS baselines.
- ✓ Rigorous application of corporate governance, audit, and risk frameworks based on ITIL, COBIT, and ISO security standards.
- ✓ Structured agile PMO models and Lean Portfolio Management (LPM) at Magazine Luiza, mapping team capacity (Capacity Planning) to ROI goals.

CERTIFICATIONS

SPC SAFe Practice Consultant (Scaled Agile Framework)

PMP® Project Management Professional (PMI)

KMP (Kanban Management Professional)

Lean Digital (Lean Institute Brazil)

ITIL 4 Foundation

COBIT 2019

Management 3.0

VMO Expert

EDUCATION

- ✓ Bachelor's Degree in Physics (UNICAMP)
- ✓ Associate Degree in Data Processing (FATEC)
- ✓ MBA in IT Management (UNIP)

LANGUAGES

Advanced English

Native Portuguese

Intermediate Spanish
