📋 EXECUTIVE SUMMARY

Senior IT Project Manager, Data & AI Tech Manager, and Agile Coach with over 25 years of experience in software development and organizational transformations.

⚙️ KEY COMPETENCIES

- ✓ Enterprise Agile Scaling (SAFe, LeSS)
- ✓ Lean Portfolio Management (LPM)
- ✓ Value Stream Mapping & Flow Optimization
- ✓ Data Mesh & DataOps Governance
- ✓ MLOps & Generative AI Transformation
- ✓ Product Operations & Telemetry
- ✓ Project Recovery & Crisis Management
- ✓ Cloud FinOps & Capacity Optimization

👤 LEADERSHIP

- ✓ Sovereign & Stoic Leadership
- ✓ Executive Coaching & C-Suite Alignment
- ✓ Change Management (ADKAR Model)
- ✓ Cross-Functional Team Dynamics
- ✓ Stakeholder & Multi-Vendor Management
- ✓ Strategic Budgeting (Capex/Opex)
- ✓ Training & Mentorship
- ✓ Conflict Resolution & Swarming Command

📁 PROFESSIONAL EXPERIENCE

Managing Consultant & Enterprise Lean-Agile Expert

2025 – Present

MLGTT Consulting - IT Consulting and Services (focused on Project Management, Agility, Data, and AI).

Client: Various Clients / On-Demand - Consultoria Analítica e Serviços de TI

- ✓ Provide strategic consulting focused on implementing a sovereign leadership framework (based on Stoic principles) for technology executives, enhancing operational resilience and clarity in complex decision-making.
- ✓ Develop and deploy advanced analytical scripts and custom tools using Python (Pandas, Selenium, BeautifulSoup) alongside automation workflows in Linux environments to optimize market data gathering, sanitization, and monitoring for decision-makers.
- ✓ Lead executive workshops on Lean Portfolio Management (LPM) and Value Stream Mapping (VSM) for tech startups and consultancies, reducing operational bottlenecks and restructuring the end-to-end value chain.

Transformation Manager & Senior Agile Coach

2018 – 2019

Accenture (SolutionsIQ) - Management Consulting, Technology, and Agile Transformation (SolutionsIQ is Accenture's specialized Agile practice).

Client: Major Financial Institutions & Global Consumer Goods Corporations - Consultoria Analítica e Serviços de TI

- ✓ Led the organizational design and scaling of an agile operating model (SAFe/LPM) for over 40 financial teams, accelerating executive decision-making and budget approvals by 35%.

- ✓ Assumed crisis management of a multimillion-dollar software delivery at risk, optimizing flow metrics to reduce Lead Time by 45% and fully stabilizing contractual SLAs within 60 days.
- ✓ Established agile governance for internal platform engineering, implementing SPACE and DORA frameworks to improve deploy frequency by 50% and cut system setup time from 3 weeks to 30 minutes.
- ✓ Designed a Data Mesh operational blueprint across 12 domains, reducing data analytics time-to-market by 90% and standardizing Data Product Owner lifecycles.
- ✓ Spearheaded a compliance-regulated Generative AI agile framework, achieving a 50% reduction in AI solution validation roadmaps while implementing automated audits for statistical risk and algorithmic bias.
- ✓ Implemented a corporate Cloud FinOps structure across autonomous product squads, eliminating R\$ 4.2 million in cloud waste over 10 months with zero performance degradation.
- ✓ Consolidated a fragmented landscape of product management tools (Miro, Jira, Asana), establishing methodological Golden Paths and PRD compliance reviews that yielded R\$ 1.8 million in annual savings.
- ✓ Successfully localized a global operating model for a consumer goods giant, increasing local C-suite and engineering adoption from 15% to 92% within 6 months.

Senior Manager - IT Project Management & Agile Transformation

2025

PwC Brasil - Audit, Tax, Corporate Advisory, and Business Consulting (one of the Big Four accounting firms).

Client: Large National and International Corporations - Consultoria Analítica e Serviços de TI

- ✓ Structured a Digital Transformation PMO focused on business process redesign and migrating large legacy backoffice systems (ERP and CRM) to Cloud-Native architectures.
- ✓ Managed strategic roadmaps integrating compliance audits and technology governance (SOX, LGPD), ensuring 100% regulatory compliance across newly mapped digital workflows.
- ✓ Advised executive committees (C-Suite) on IT Capex/Opex allocation and organizational change management strategies structured through the ADKAR framework.

Agile Delivery Lead & Data Project Manager

2024

insi (Meta IT) - Information Technology, Outsourcing, and Digital Transformation Consulting.

Client: Large-Scale Enterprises & Logistics Providers - Consultoria Analítica e Serviços de TI

- ✓ Managed engineering teams focused on data modernization pipelines, facilitating the transition from legacy Business Intelligence architectures to scalable, DataOps-oriented frameworks.
- ✓ Led turnarounds for distressed projects involving multiple technology vendors, leveraging Swarming practices and flow monitoring (Lead Time, Cycle Time) to restore contractual SLAs under high-pressure scenarios.
- ✓ Fostered organizational agile maturity by implementing unified metrics across Jira Software and Confluence dashboards to provide clear predictability and visibility to stakeholders.

Senior IT Project Manager & Agile Specialist

2021 – 2023

Grupo Globo - Media, Communication, and Entertainment.

Client: Internal (Digital Platforms & Technology) - Mídia, Entretenimento e Telecomunicações

- ✓ Led the planning and agile delivery of initiatives focused on digital content distribution platforms and high-performance backend customer service systems.
- ✓ Implemented Dual-Track Agile approaches, bringing Product Discovery closer to Software Engineering tracks, which optimized the time-to-market of new media features by 30%.
- ✓ Drove conflict resolution and technical orchestration between physical studio infrastructure teams and cloud software development squads, ensuring high-impact nationwide deliveries.

Senior IT Project Manager & Enterprise Agile Coach

2008 – 2017

CI&T - Software Development and Digital Transformation (Lean Digital).
Client: Global Banking & Insurance Leaders - Consultoria Analítica e Serviços de TI

- ✓ Led complex methodological transition programs from traditional (Waterfall) models to scaled Lean-Agile structures (SAFe and Scrum-based), directly enhancing the operational efficiency of over 15 product tribes.
- ✓ Responsible for scope, timeline, and budget management of major credit and insurance products, including the reengineering of regulatory approval workflows and fast-track launching of auto insurance solutions.
- ✓ Driven strategic alignment through Lean Inception workshops, structuring robust delivery roadmaps focused on continuous value generation and waste reduction in software development.
