📋 EXECUTIVE SUMMARY

Senior professional and transformational leader with over 25 years of technical and executive experience driving large-scale agile and digital transformations within major global corporations and tier-1 consultancies. Specialist in establishing solid bridges between C-Level strategic objectives and the technical execution of senior engineering teams. Backed by a strong methodological foundation with prestigious certifications such as SAFe Practice Consultant (SPC), PMP, and Kanban Management Professional (KMP), I possess the analytical flexibility to design tailored, hybrid governance models that eliminate operational waste and maximize Return on Investment (ROI). My approach is driven by Lean thinking, strategic resilience, and servant leadership, creating environments of high psychological safety and trust that convert complex cultural resistance into practical, sustainable engagement focused on continuous business value.

⚙️ KEY COMPETENCIES

- ✓ **Enterprise Agile Scaling:** Hands-on implementation of SAFe, Scrum of Scrums, Agile Release Train (ART) structuring, and PI Planning facilitation.
- ✓ **Lean Portfolio Management (LPM):** Strategic enterprise demand management, OKR alignment, and prioritization using the WSJF technique.
- ✓ **Advanced Flow Metrics:** Analytical operational optimization using Lead Time, Cycle Time, CFD, WIP limits, and throughput.
- ✓ **Turnaround & Organizational Change:** Diagnosis via Value Stream Mapping (VSM), Kotter/ADKAR change models, and crisis management.

👥 LEADERSHIP

- ✓ **Business Acumen:** Direct connection between technical engineering efforts and the organization's ROI and Time-to-Market indicators.
- ✓ **Servant Leadership & Autonomy:** Fostering environments of high trust and psychological safety, mitigating team burnout.
- ✓ **C-Level Communication & Alignment:** Translating complex agile metrics into clear financial and strategic executive views.
- ✓ **Conflict Management & Negotiation:** Situational resolution of political frictions, aligning technical and business expectations under high pressure.
- ✓ **Financial Skills & FinOps:** Budgetary management of Capex/Opex and tracking the actual financial return of transformations.
